Regulatory Product Information (RPI) **Only Valid for Use in Cosmetics (Version 4.0)**

Aristoflex AVC

1. General Information		
1.1	Trade name	Aristoflex AVC
1.2	Raw material category	Gelling agent for aqueous systems and thickening agent for oil in water emulsions
1.3	Chemical name	Polymeric sulfonic acid, partially neutralized with ammonia
1.4	INCI (CTFA) name Composition	Ammonium Acryloyldimethyltaurate/VP Copolymer
1.5	EC (EINECS/ELINCS) no.	Polymer
1.6	CAS no.	335383-60-3
1.7	Registration status (e.g. EU, US, Japan)	Listed on the chemical inventories of Australia, Canada, China, European Union (polymer exemption), Korea, Philippines and Switzerland. As a cosmetic ingredient Aristoflex AVC is not subject to TSCA and MITI.
1.8	Regulations for cosmetic use	In conformity with the requirements relevant to cosmetic ingredients of the Cosmetics Regulation (EC) 1223/2009. It remains the responsibility of the cosmetics' manufacturer to check the compliance of its product with applicable local regulations.
1.9	Country of manufacturing site	Spain

Regulatory Product Information (RPI) **Only Valid for Use in Cosmetics (Version 4.0)**

Aristoflex AVC

2.6	BSE / TSE	Product is only based on materials which do not originate from animal sources. Therefore, the appearance of Bovine Spongiform Encephalopathy (BSE) or Transmissible Spongiform Encephalopathy (TSE) are not to be expected.
2.7	Halal Statement	see Halal certificate for following production site: Tarragona / Spain
2.8	Vegan	To the best of our knowledge, there is currently no official definition or standard for vegan cosmetic. However, based on its current formulation we can confirm for above mentioned product that: - The source of origin of product is purely synthetic / plant. It does not contain any animal derived materials - All possible steps have been taken to avoid cross-contamination from animal substances used in other products
3. Additives		
3.1	Preservatives	not added by recipe
3.2	Antioxidants	not added by recipe
3.3	Solvents	not added by recipe
3.4	Bleaching agents	not added by recipe
3.5	Fragrances (Allergens) according to the European Cosmetics Regulation (EC) 1223/2009, Annex III and its amendments	not added by recipe
3.6	CMR classified ingredients (according to regulation (EC) 1272/2008 / EU Cosmetics Regulation (EC) 1223/2009 and its amendments)	not added by recipe

Aristoflex AVC

3.7	Dangerous ingredients according to Regulation (EC)1272/2008 (CLP)	See EU safety data sheet, chapter 2 or 3 (regulatory information, hazardous components).
3.8	Others	Food allergens as of Directive 2000/13/EC (as amended), Annex IIIa and Regulation (EU) 1169/2011, Annex II are not added by recipe.
4. Microbiological Specification		
4.1	Total viable count (colony-forming units/g)	< 100
5. By-products <i>The presence of traces of the substances listed in Annex II of Regulation (EC)1223/2009 (incl. cmr category. I-III substances marked with *) shall be allowed provided that such presence is technically unavoidable in good manufacturing practice and that it conforms with Article 3 of Regulation (EC)1223/2009.</i> <i>** An analytical determination of such substances is neither part of Clariant's production control nor is it part of Clariant's delivery specifications.</i>		
5.1	1,4-Dioxane *	not expected from the process**
5.2	Ethylene oxide *	not expected from the process**
5.3	Residual solvents	max. 4 % tert. Butanol max. 7 % water
5.4	Residual monomers	max. 500 ppm Acrylamidomethylpropane sulfonic acid (AMPSA) max. 50 ppm VP max. 5 ppm Trimethylolpropane triacrylate (TMPTA)
5.5	Amines	not expected from the process**
5.6	Nitrosamines	not expected from the process**
5.7	Heavy metals	max. 10 ppm Ni, Cr, Co, Cd, Hg, Pb, As, Sb, each < 1 ppm

Regulatory Product Information (RPI) **Only Valid for Use in Cosmetics (Version 4.0)**

Aristoflex AVC

5.8	Monochloroacetic acid	not expected from the process**
5.9	Dichloroacetic acid	not expected from the process**
5.10	Phthalates	not expected from the process**
5.11	Pesticides	Based on information concerning raw materials, production process and equipment used, pesticides are not likely to be present.
5.12	Glycol ethers	Based on information concerning raw materials, production process and equipment used, Butyldiglycol, Ethyldiglycol and 2-Butoxyethanol are not likely to be present.
5.13	Others	
6. Toxicology		
See Safety Data Sheet for toxicological information		
7. Ecology		
See Safety Data Sheet for ecological information		
8. Additional Information		
<i>(For details on specification see enclosed instruction sheet; for details on labelling and classification see enclosed safety data sheet.)</i>		
8.1	Nanomaterial	Product is not considered as a nanomaterial according (EC) No.1223/2009 definition art.2 (1k).
8.2.	Microplastic	The product as raw material does not fall under the definition as described in the EU Regulation (EU) 2023/2055 amending Annex XVII to Regulation (EC) No 1907/2006 as regards synthetic polymer microparticle

This is an electronically generated document and valid without signature.

All statements refer exclusively to the named product in its current formulation: they are based on the present state of our knowledge and experience at the time of publication and concern the product in its original form and packaging as supplied from Clariant.

The cosmetics' manufacturer himself is responsible for ensuring that the finished product is suitable for the intended use, and is also responsible for ascertaining the compliance of the end product with the national and international regulations and laws concerning its application field.

This information corresponds to the present state of our knowledge and is intended as a general description of our products and their possible applications. Clariant makes no warranties, express or implied, as to the information's accuracy, adequacy, sufficiency or freedom from defect and assumes no liability in connection with any use of this information. Any user of this product is responsible for determining the suitability of Clariant's products for its particular application. * Nothing included in this information waives any of Clariant's General Terms and Conditions of Sale, which control unless it agrees otherwise in writing. Any existing intellectual/industrial property rights must be observed. Due to possible changes in our products and applicable national and international regulations and laws, the status of our products could change. Material Safety Data Sheets providing safety precautions, that should be observed when handling or storing Clariant products, are available upon request and are provided in compliance with applicable law. You should obtain and review the applicable Material Safety Data Sheet information before handling any of these products. For additional information, please contact Clariant.

* For sales to customers located within the United States and Canada the following applies in addition
NO EXPRESS OR IMPLIED WARRANTY IS MADE OF THE MERCHANTABILITY, SUITABILITY, FITNESS FOR A PARTICULAR PURPOSE OR OTHERWISE OF ANY PRODUCT OR SERVICE.

CERTIFICATE OF COMPOSITION*

Trade Name:	Aristoflex AVC
--------------------	-----------------------

INCI Name	Concentration	CAS number	EC number	Function
Ammonium Acryloyldimethyltaurate/VP Copolymer	100 %	335383-60-3	Polymer	Rheology Modifier

* Creation of the INCI List of ingredients for finished products according to local requirements is in the final responsibility of the organization placing the finished products on the market. The certificate of composition is supporting this task by listing the components. Auxiliaries (Preservatives, antioxidants, pH adjusters, etc.) can be found in Chapter 3 of this RPI.

This is an electronically generated document and valid without signature.

This product information is based on the present state of our knowledge according to the current state of the art. We may modify it any time, in particular in case of changes of national and international regulations and laws, or new scientific findings. Please reach out to your Clariant contact to receive the latest update of this product information. No warranties other than that the product complies with our standard specification is given. No guarantee or warranty regarding the suitability of the product for any intended application is implied*.

This product information is made for the sole benefit of direct customers of our affiliates within the framework of a purchase order or supply agreement. Clariant's General Terms and Conditions of Sale apply, unless agreed otherwise in writing.

*For sales to customers located within the United States and Canada:

NO EXPRESS OR IMPLIED WARRANTY IS MADE OF THE MERCHANTABILITY, SUITABILITY, FITNESS FOR A PARTICULAR PURPOSE OR OTHERWISE OF ANY PRODUCT OR SERVICE
