

MATERIAL SAFETY DATA SHEET

1. Identification of the substance or mixture and of the supplier

- A. GHS product identifier : Garcinia pwd GB 50
- B. Recommended use of the chemical and restrictions on use
- o Recommended Use : Raw Material for Cosmetics
 - o Restrictions on use : Not available
- C. Manufacturer
- o Company name : GN BIO
 - o Address : # T-741, Ki heung tera tower, Seocheon ro 201 beongil 11, Ki heung gu, Yong in si, Kyoung ki do, 17111 REPUBLIK
 - o Emergency phon number : +82-10-6220-2750 / Fax +82 50 7084 2750
 - o Respondent : Jeong Hwan Park (E-mail: jeongwanp@gmail.com)

2. Hazards identification

A. Classification of the substance or Mixture

The product is not classified as hazardous pursuant the provisions set forth in Directives 67/548/EEC and 1999/45/EC and/or EC Regulation 1272/2008(CLP) (and subsequent amendments and supplements)

B. Label elements

Hazard labelling pursuant to EC Regulation 1272/2008(CLP) and subsequent amendments and supplements

- Hazard Pictograms:

- Signal Word: **Warning**

- Precautionary statements

- P243 Take precautionary measures against static discharge.
- P260 Do not breathe dust/ fume/ gas/ mist/ vapor/ spray.
- P261 Avoid breathing dust/ fume/ gas/ mist/ vapor/ spray.
- P280 Wear protective gloves/ protective clothing/ eye protection/ face protection
- P312 Call a POISON CENTER or doctor/ physician if you feel unwell

3. Composition / information on ingredients

INCI Name	CAS No./EINECS No.	Content(%)
Garcinia Cambogia Fruit Extract	90045-23-1/ 289-882-8(I)	100

4. First aid measures

A. Eye contact

- Call emergency medical service.
- In case of contact with substance, immediately flush skin or eyes with running water for at least 20 minutes.

B. Skin contact

- Get medical advice/attention if you feel unwell.
- Remove and isolate contaminated clothing and shoes.
- In case of contact with substance, immediately flush skin or eyes with running water for at least 20 minutes.
- For minor skin contact, avoid spreading material on unaffected skin.

C. Inhalation

- If exposed or concerned: Get medical advice/ attention.
- Move victim to fresh air.
- Keep victim warm and quiet.

D. Ingestion

- If exposed or concerned: Get medical advice/ attention.
- Do not use mouth-to-mouth method if victim ingested or inhaled the substance; give artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device.

E. Indication of immediate medical attention and notes for physician

- Exposures require specialized first aid with contact and medical follow-up .
- Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves.

5. Fire-fighting measures

A. Suitable (and unsuitable) extinguishing media

- Use alcohol foam, carbon dioxide, or water spray when fighting fires involving this material.
- Use dry sand or earth to smother fire.

B. Specific hazards arising from the chemical

- May decompose at high temperatures into forming toxic gases.
- Containers may explode when heated.
- Some of these materials may burn, but none ignite readily.
- Non-combustible, substance itself does not burn but may decompose upon heating, then produce corrosive and/or toxic fumes.

C. Special protective equipment and precautions for fire-fighters

- Rescuers should put on appropriate protective gear.
- Evacuate area and fight fire from a safe distance.
- Substance may be transported in a molten form.
- Dike fire-control water for later disposal; do not scatter the material.
- Move containers from fire area if you can do it without risk.
- Fire involving Tanks; Fight fire from maximum distance or use unmanned hose holders or monitor nozzles.
- Fire involving Tanks; Cool containers with flooding quantities of water until well after fire is out.

- Fire involving Tanks; Withdraw immediately in case of rising sound from venting safety devices or discoloration of tank.
- Fire involving Tanks; Always stay away from tanks engulfed in fire.
- Fire involving Tanks; For massive fire, use unmanned hose holders or monitor nozzles; if this is impossible, withdraw from area and let fire burn.

6. Accidental release measures

A. Personal precautions, protective equipment and emergency procedures

- Do not breathe dust/fume/gas/mist/vapours/spray.
- Clean up spills immediately, observing precautions in Protective Equipment section.
- Eliminate all ignition sources.
- Stop leak if you can do it without risk.
- Do not touch damaged containers or spilled material unless wearing appropriate protective clothing.
- Cover with plastic sheet to prevent spreading.
- Prevent dust cloud.
- Please note that there are materials and conditions to avoid.

B. Environmental precautions and protective procedures

- Prevent entry into waterways, sewers, basements or confined areas.

C. The methods of purification and removal

- Absorb spills with inert material (e.g., dry sand or earth), then place in a chemical waste container.
- Absorb the liquid and scrub the area with detergent and water.
- Large Spill; Dike far ahead of liquid spill for later disposal.
- With clean shovel place material into clean, dry container and cover loosely; move containers from spill area.
- Powder Spill; Cover powder spill with plastic sheet or tarp to minimize spreading and keep powder dry.
- Small Spill; Take up with sand or other non-combustible absorbent material and place into containers for later disposal.

7. Handling and storage

A. Precautions for safe handling

- Do not handle until all safety precautions have been read and understood.
- Follow all MSDS/label precautions even after container is emptied because they may retain product residues.
- Use carefully in handling/storage.
- Loosen closure cautiously before opening.
- Do not enter storage area unless adequately ventilated.
- Please note that there are materials and conditions to avoid.

B. Conditions for safe storage

- Store locked up.
- Empty drums should be completely drained, properly bunged, and promptly returned to a drum reconditioner, or properly disposed of.

8. Exposure controls / personal protection

A. Occupational Exposure limits

- o Korea regulation: Not available
- o Biological exposure index : Not available
- o OSHA regulation : Not available
- o NIOSH regulation : Not available
- o EU regulation : Not available
- o Other : Not available

B. Appropriate engineering controls

- Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits.

C. Personal protective equipment

o Respiratory protection

- Wear NIOSH or European Standard EN 149 approved full or half face piece (with goggles) respiratory protective equipment when necessary.
- In case exposed to particulate material, the respiratory protective equipments as follow are recommended. ;facepiece filtering respirator or air-purifying respirator, high-efficiency particulate air(HEPA) filter media or respirator equipped with powered fan, filter media of use(dust, mist, fume)
- In lack of oxygen(< 19.5%), wear the supplied-air respirator or self-contained breathing apparatus. oxygen

o Eye protection

- Wear breathable safety goggles to protect from particulate material causing eye irritation or other disorder.
- An eye wash unit and safety shower station should be available nearby work place.

o Hand protection

- Wear appropriate protective gloves by considering physical and chemical properties of chemicals.

o Body protection

- Wear appropriate protective clothing by considering physical and chemical properties of chemicals.

9. Physical and chemical properties

A. Appearance :

- o Description : Powder
- o Color : Brown

B. Odor : Typical odor.

C. Odor threshold : Not available

D. pH : Not available

E. Melting point/freezing point : Not available

F. Initial boiling point and boiling range : Not available

G. Flash point : Not available

H. Evaporation rate : Not available

I. Flammability (solid, gas) : Not available

J. Upper/lower flammability or explosive limits : Not available

K. Vapor pressure : Not available

L. Solubility (ies) : Not available

- M. Vapor density : Not available
- N. Specific gravity : Not available
- O. Partition coefficient: n-octanol/water : Not available
- P. Auto ignition temperature : Not available
- Q. Decomposition temperature : Not available
- R. Viscosity : Not available
- S. Molecular weight : Not available

10. Stability and reactivity

- A. Chemical stability and Possibility of hazardous reactions : Not available
- B. Conditions to avoid : Not available
- C. Incompatible materials : Not available
- D. Hazardous decomposition products : Not available

11. Toxicological information

- A. Information of Health Hazardous
 - o Acute toxicity
 - Oral : Not available
 - Dermal : Not available
 - Inhalation : Not available
 - o Skin corrosion/ irritation : Not available
 - o Serious eye damage/ irritation : Not available
 - o Respiratory sensitization : Not available
 - o Skin sensitization : Not available
 - o Carcinogenicity : Not available
 - o Mutagenicity : Not available
 - o Reproductive toxicity :Not available
 - o Specific target organ toxicity (single exposure) : Not available
 - o Specific target organ toxicity (repeat exposure) : Not available
 - o Aspiration Hazard : Not available

12. Ecological information

- A. Ecological toxicity
 - o Fish : Not available
 - o Crustcean : Not available
 - o Algae : Not available
- B. Persistence and degradability
 - o Persistence : Not available
 - o Degradability : Not available
- C. Bioaccumulative potential
 - o Bioaccumulation : Not available
 - o Biodegradation : Not available

D. Mobility in soil : Not available

E. Other hazardous effect : Not available

13. Disposal considerations

A. Disposal method

Waste must be disposed of in accordance with federal, state and local environmental control regulations.

B. Disposal precaution

Consider the required attentions in accordance with waste treatment management regulation.

14. Transport information

A. UN Number : Not applicable

B. UN Proper shipping name : Not applicable

C. Transport Hazard class : Not applicable

D. Packing group : Not applicable

E. Marine pollutant : Not applicable

F. Special precautions

in case of fire : Not applicable

in case of leakage : Not applicable

15. Regulation information

A. KOREA Regulatory information : Not regulated

B. Foreign Regulatory Information

o External information

- EU classification(classification) : Not classified
- EU classification(risk phrases) : Not classified
- EU classification(safety phrases) : Not classified
- EU SVHC list : Not regulated
- EU Authorisation List : Not regulated
- EU Restriction list : Not regulated
- U.S.A management information(OSHA) : Not regulated
- U.S.A management information(CERCLA) : Not regulated
- U.S.A management information(EPCRA 302) : Not regulated
- U.S.A management information(EPCRA 304) : Not regulated
- U.S.A management information(EPCRA 313) : Not regulated
- Substance of Rotterdame Protocol : Not regulated
- Substance of Stockholme Protocol : Not regulated
- Substance of Montreal Protocol : Not regulated
- Substance in Candidate List(Art. 59 REACH) : None

C. Foreign Inventory Status: Not available

16 Other information

A. Information source and references : Not available

B. Issued date : March 6, 2022

C. Others

- Since the user's working conditions are not known by us, the information supplied on this safety data sheet is based on our current level of knowledge and on national and community regulations.
- The product must not be used for any purposes other than those specified under heading 1 without first obtaining written handling instructions.
- It is at all times the responsibility of the user to take all necessary measures to comply with legal requirements and local regulations.
- The information given on this safety data sheet must be regarded as a description of the safety requirements relating to our product and not a guarantee of its properties.
