

Safety Data Sheet**Brilliant-CSA (Capryloyl Salicylic Acid)****1. Product and Company Identification**

Product name Capryloyl Salicylic Acid
Manufacturer: Beijing Brilliance Biochemical CO., Ltd.
Address: No. 6, B Zone, Yongle Economic Development Area, Tongzhou
District, Beijing
P.R.China
Postal Code:101105
Phone:86-10-87766913
Fax:86-10-87748771

2. Composition/Information on ingredients

Product Name	Brilliant-CSA
INCI Name	Capryloyl Salicylic Acid
Chemical Name	2-hydroxy-5-(1-oxooctyl)- Benzoic acid
CAS No.	78418-01-6
Molecular Formula	$C_{15}H_{20}O_4$
Assay	> 98%

**3. Hazards identification**

Not Available

4. First-aid measures

Skin	- Wash affected areas with soap and water. - Remove and launder contaminated clothing before reuse. - If irritation develops, get medical attention.
Eyes	- Immediately rinse eyes with running water for 15 minutes.

Brilliant-CSA (Capryloyl Salicylic Acid)

	- If irritation develops, get medical attention.
Ingestion	-If swallowed, dilute with water and immediately induce vomiting. Never give fluids or induce vomiting if the victim is unconscious or having convulsions. Get immediate medical attention.
Inhalation	-Move to fresh air. Aid in breathing, if necessary, and get immediate medical attention
Aggravated Medical Conditions	-No data is available which addresses medical conditions that are generally recognized as being aggravated by exposure to this product. Please refer to the effects of overexposure section for effects (if any) observed in animals.
Special Precautions	-None

5. Fire-fighting measures

Fire Extinguishing Media	-Use media appropriate for surrounding fire and/or materials.
Instructions to the Fire Fighters	-Isolate materials that are not involved in the fire and protect personnel. The heat from a fire can cause a build-up of pressure inside the containers which may explode. No part of a container should be exposed to temperatures above 50 Degrees Celsius. Cool containers with flooding quantities of water until well after the fire is out.
Protective Equipment	-Use self-contained breathing apparatus and protective clothing.

6. Accidental release measures

Containment and Clean-Up Procedures	- Wear protective clothing. Collect product for recovery or disposal. For release to land, or storm water runoff, contain discharge by constructing dykes or applying inert absorbent; for release to water, utilize damming and/or water diversion to minimize the spread of contamination. Ventilate enclosed spaces. Notify applicable government authority if release is reportable or could adversely affect the environment.
-------------------------------------	--

7. Handling and storage

Store at moderate temperatures, in tight containers.

8. Exposure controls/Personal protection

Engineering Controls:	- Keep container tightly closed
-----------------------	---------------------------------

Brilliant-CSA (Capryloyl Salicylic Acid)

- Used only in well ventilated areas

Personal protective equipment

Clothing	-Gloves, coveralls, apron, and boots as necessary to prevent contact.
Eyes	-Chemical Goggles
Respiration	-If dusts are generated, wear an approved dust respirator
Ventilation	-Use local exhaust to control dusts.
Explosion Proofing	-None required.

9. Physical and chemical properties

Form/Appearance:	Powder
Odor:	Odorless
Specific Gravity:	Not available
Boiling Pt:	Not available
Solubility in Water Description:	Can't dissolve in water
Shelf life:	Three years.

10. Stability and reactivity

Stability Data	-Stable
Incompatibility	-None known.
Conditions/Hazards to Avoid	-Formation of dust; protect from electrostatic charge.
Hazardous Decomposition/Polymerization	-Hazardous decomposition products: None known.
Polymerization	-Does not occur.
Corrosive Properties	-Not corrosive.
Oxidizer Properties	-Not an oxidizer

11. Toxicological information**Toxicology Test Data:**

Rat, Oral LD50 - >5000 MG/KG
Practically Nontoxic
Rat, Dermal LD50 - >2000 MG/KG
Practically Nontoxic
Rabbit, Skin Irritation (OECD Test 404) -
Nonirritating
Rabbit, Eye Irritation -
Nonirritating
Guinea Pig, Maximization Test -

Not a sensitizer

Ames Salmonella Assay -

Negative (no mutagenic response)

12. Ecological information

Ecotoxicity -Not available.

Environmental Fate -Not available.

13. Disposal considerations

Waste Disposal -Incinerate in a licensed facility. Do not discharge into waterways or sewer systems.

Container Disposal -Dispose of in a licensed facility. Recommend crushing or other means to prevent unauthorized reuse.

Other Spill/Leak Procedures -When product is properly discharged in low concentrations to biological waste water treatment plants it should not cause any disturbances in the degradation activity of the activated sludge.

14. Transport information

Not available

15. Regulatory information

Reviews, standards and regulations

16. Other information

Use - as additive for cosmetics

Edition documentation - changes from previous version in sections 16

The information in this safety data sheet is based on current scientific knowledge. It should not be taken as expressing or implying any warranty concerning product characteristics. Brilliant should be not held liable for any damage resulting from handling or from contact with the above product
